

# *Harry Potter* and *Ron Weasley*

*By Adam Q.*

Harry and Ron are very different but similar at the same time. Harry Potter and Ron Weasley are both from the Harry Potter books. They both have been told to use hand me downs but a big difference between them is their family. Harry doesn't have a family but Ron has a huge family.

## **Appearances**

Harry has black messy hair (in the books) and Ron has red and very formal hair. As I mentioned earlier, Ron is bigger and taller than Harry. Harry is the average size for a person his age. Also one of the most crucial things that Harry has that is different from Ron is his lightning scar. Although they are very different in appearance, they have some similarities. Both Harry and Ron are the same age so they will look young or old at the same time.

## **Actions/Motives**

Harry and Ron both have similar motives, one of them being to defeat Voldemort. Harry, as the main character is the one to defeat Voldemort every book. Ron is just a friend of Harry but he has contributed crucial parts to the story every once in a while. What do you expect if the book is named after Harry?

Voldemort

## Personality

Ron is not responsible and likes to play around but but Harry is more serious. For

example Ron likes to pass notes in class and barely passed O.W.L.S (exams) while Harry cares about school and he cares about beating Voldemort. He never just stops thinking about it, he stresses to much. Although they are different they are both brave and leaders.

# **PETS!**

Ron Weasley has a lot of pets. Some of the pets I will be mentioning are Weasley family pets. Harry has one pet, A snowy owl named Hedwig. Harry was gifted Hedwig for his birthday and first year at Hogwarts School of Witchcraft and Wizardry. This was surprisingly his first birthday present. Hedwig delivers mail for Harry and

understands everything Harry says, she is very loyal to him. Once, she flew all the way to France for a present to one of Harry's friends.

Ron has a lot of pets. When I say a lot I mean a lot! Scabbers was a rat that was passed down from Ron's brother Percy as a pet. The rat turned out to be a man named Peter Pettigrew, he was transformed

into a rat with magic. Ron could not keep him as a pet any longer. Ron was gifted a Scops Owl because he couldn't keep Scabbers anymore. Ginny named him Pigwidgeon, but Ron did not like that name so he called him Pig. Ron had a frog in his bedroom but there is not much else to say about it. The Weasleys had gnomes in their backyard and around their house. They're not nice and don't use kind words.

The Weasleys were tired of having the gnomes around so they threw them out of the house. Crookshanks, Hermione's cat chased them out of the yard so that helped too. Ron did have a ghoul that was transformed to look like him so he could skip school but I wouldn't call it a pet.

# Conclusion

In the end, Ron and Harry are similar and different in their own ways. They are both unique characters that contribute good parts to the story
