

The Argument

Omniscient

It all started when Kim was doing the house chores, for once. She done all her work and was pretty proud of herself. Kourtney, was planning a kid's birthday party. Khloe, was checking out her fan mail. But Rob, oh what was he doing. Oh little old Rob, coincidently he was the youngest. Rob has gained massive **WEIGHT** over the past month. All those **McDonalds** were too much for the little guy. Once he got home, Kim was furious.

“What the heck Rob, your such a slob! Your like..... **FAT**” said Kim so confused about Rob's **MASSIVE** weight change.

“What do you mean? I look great!” Rob said patting his stomach. He was annoyed how Kim was saying he was fat. “At least I married someone who has a good job! Unlike Kanye singing rap and selling... **SHOES.**” he said now looking at Kim's furious face. Her eyes beaming at him. “And those stupid names you give your kids like Psalm... like you can do better than... **THAT.**”

“My husband makes **MILLIONS** and **MILLIONS** of **DOLLARS.** But you! Your like **FARRRRRRRR** from famous. I think your fat and your stupid fame is the best of **YOUR** problems.” said Kim now knowing she

won the argument staring at Rob.

The Argument

First Person

I finished **ALL** my work and I'm just washing the dishes. I hear the door bell.

"Khloe go get it! I'm doing the dishes!" I screamed since Khloe is just that deaf. No answer. **"Ugh! When did I get such a lazy sister..."** I went to get the door and I was so shocked and surprised of what I saw! It was Rob! But no just Rob, it was **FATTY** Rob. **"What the heck Rob, your such a slob! Your like... FAT!"**

“What do you mean? I look great!” said Rob patting his stomach. I was disgusted by his behavior.

He went on and on roasting my **HUSBAND, KIDS**. He shouldn't be worried about that! That slob has a life too! He has a wife and she has a “decent” job, like what the hey!? I roasTed him back badly. I could see in his eyes that I won the argument.
