

The “Unwanted” Brothers - Alex vs. Aaron

By Matthew T.

I am comparing Alex and Aaron from the book series Unwanted by Lisa Mcmann. Alex and Aaron are identical twins, therefore they look the same. Above each brother’s eye is a black scar. Their appearance is slightly different because Aaron has scars on his chin and forehead. It’s also different because Alex has brown hair and Aaron has black hair.

Alex and Aaron's personality are also very similar like their appearance. Their personality is the same because they both help homeless people because they used to be poor and knows what it feels like. Their personality is also the same because they both get very angry under pressure or when they are being made fun of. Their personality is different because Aaron attacks islands for fun and Alex protects them so people don’t die. Their personalities are also different because Aaron teams up with bad guys and Alex teams up with good people or if he needs to for the good of other people or his own he will team up with bad guys.

Alex and Aaron's motives and actions are similar because they both did not care when their mother died. They did not care because their mother sent Alex to his death and Aaron is just naturally selfish and cruel! Their also similar because they both attack islands if they need to. They will attack only if their people, friends or family get taken. They're different because when Aaron teams up he teams up with bad guys like General Blair because Artime is too powerful to defeat and Alex only teams up if it’s for the good of others. Another way they are different is that Alex saves his people before himself and Aaron does not help his people in their time of need because Alex’s people have always been loyal to him so he saves them first and Aaron is cruel so he saves himself.

Another thing that is similar is their creativity. Their similar in magic because they both use a lot of creativity to create and make spells. Their also similar in battle plans because both have a plan A, B and C. There also different in creativity. Aaron can fix and make any object. Their also different because Aaron makes new jobs to go with his civilization and Alex sticks with the jobs that were put there to begin with.
