By: Meghan C.

Darbie and Hannah are characters of a TV series called Just Add Magic. I chose them to compare because they have very different personalities, but often agree on what's best for their friend, Kelly. This collection of episodes are on Prime Video. The series is about three girls who find a magical cookbook and cook magical recipes. The best friends go on a magical journey.

Appearance

Darbie and Hannah both regularly wear jeans. They also wear earrings and their hair is the same length, to their shoulders. Darbie has red hair while Hannah is a brunette. Darbie and Hannah wear different jewelry. Darbie wears bracelets and sometimes headbands. Hannah wears headbands and necklaces. Hannah dresses more formally than

Darbie. Hannah's clothes have a lot of lacing and are normally darker colors, but Darbie's clothes have a lot of color.

Personality

Darbie is a klutz. Darbie loses things often. Hannah is very neat and organized. Darbie relies on Hannah to keep track of her stuff. Also, Darbie is a little more childish and not as responsible as Hannah, who is the responsible and mature one. Some of their similarities are that they are both kind-hearted and caring. The pair tried to help their friend Kelly when she was cursed. They are both grateful. For example, the two of them are optimistic and don't complain about what they have and don't have.

Actions and Motives

Darbie attempted to tell her friend, Piper about Magic. Darbie did this to fix her friendship with Piper. Piper was upset that Darbie was always running off to fix magical emergencies while hanging out with Piper. Hannah however, was against this idea and simply tried talking to Piper and taking part of the blame. Hannah did this because she thought that telling Piper about magic was a step too far and that Piper may not be able to be trusted. Their actions are similar because they wanted to protect something. Darbie was protecting her friendship with Piper and Hannah was trying to protect the magic. Their motives are similar because

they both did what they thought was best.
