

Harry vs. Hermione

By: Raima S.

I decided to compare the well known characters Harry Potter and Hermione Granger. They are both similar in many ways and different in many ways. They are both from the Harry Potter books and movies. In this essay you will see them be compared by these categories, appearance, personality, actions, motives, and interests/hobbies.

Hermione and Harry look alike in some ways but also very different. As we all know Hermione and Harry both go to the same school (Hogwarts) so they often wear the school uniform so they both look alike. They wear their robes and both have wands. They both have pale skin and are similar in age as well as height. They also look very different. For example, Harry is a boy and Hermione is a girl. Harry has glasses and short hair, Hermione has no glasses and longer hair. Harry had his special lightning bolt scar, Hermione didn't have a lightning bolt scar. Harry has green eyes and black hair, Hermione has blue eyes and brown hair. Also, Harry has more of a circular face while Hermione has more of an oval face. They look very different!!!

Harry Potter and Hermione Granger have a lot of similarities and differences on the inside too. They have similar and different personalities. Some ways they are similar are related to them both being in the Gryffindor house. They are both brave, bold, and very determined. They both have a lot of perseverance and keep trying until they are satisfied. They are courageous as well as adventurous. They take risks and love to be out in the real world. They are loyal and you can count on them to always do the right

thing. They have strong opinions and ideas. They are very strong willed. They are also both respected. Harry Potter for fighting Voldemort and being very brave and Hermione for being very smart and creative. They are also very talented for the same reasons they are respected. They are also totally different!!! Some of Harry Potter's main traits and characteristics are being, witty, selfless, arrogant, compassionate, and argumentative. Hermione Granger's main traits are being logical, close minded, insecure, smart, and hardworking.

Harry Potter and Hermione Granger have made many actions and have had many motives for those actions. Their actions were very similar but also different. For example, Harry and Hermione both wanted to defeat the evil Voldemort. They wanted to defeat him for the same reasons. Harry wanted to do this because he wanted to stay alive, as well as save all of the scared, innocent people. Hermione wanted to defeat Voldemort because her friend's life was at stake. She did it to save the innocent people as well. A difference is that Hermione is very organized. So it is very easy for her to get assignments and stuff done and turned in on time. Harry is very **NOT** organized!!! It is harder for him to get assignments and work done and handed in on time.

Hermionie and Harry have different ideas on what to do with their free time as well as similar ideas. Their interests and hobbies are also very different and similar.

Harry and Hermione both loved to go on a good old adventure. They both also liked writing letters and taking care of their pets. Their free time was spent differently too. Harry Potter liked to play Seeker, on his quidditch team. He also liked exploring the wizarding world and practicing his special ability to speak Parseltongue (speaking to snakes). Also on the weekends he enjoyed

going to Hogsmeade, a little nearby town. While all this excitement was happening Hermione was doing almost the exact opposite of Harry. She liked reading, and going to the library. She also enjoyed using her talents to help others. She would check other students homework, tutor, and volunteer for the needy. She loved helping people!!! Also in her room she would spend time studying or knitting.

Hermione Granger and Harry Potter had many similar traits, looks, actions, motives, hobbies, and interests. They also had many different traits, looks, actions, motives, hobbies, and interests. Who knew you could find so many similarities and differences in these two besties?
